

All of these fonts are at size: 18pt

This font is Helvetica, which is what I had before

This is some text in Arial.  
The quick brown fox jumped over the lazy dog

This font is Athelas. It has what are called “serifs”. Most folks don’t like serifs but it may work for you.

This font is Avenir. It’s sorta like Helvetica but on second thought probably won’t suit you.

This font is called Century. It looks like a newspaper

This one is Consolas. It’s what’s called a “monospace” font.

THIS FONT IS COPPERPLATE. THE LETTERS ARE ALL UPPERCASE, WITH CAPITALS BEING A LITTLE BIGGER

This font is Didot. I can’t think of anything to say about it.

This is a classic font called Garamond. It’s definitely good for text docs.

This is Gill Sans. I personally think its ugly, but can work if you like it.

This font is Lao MN. This one is interesting...

Letter Gothic Std. Def a different type of style.

This one is Myriad. It can work. The quick brown fox jumped over the lazy dog

This one is called Rockwell. I guess some folks like it?

This is Tahoma. Not much different from Helvetica.

This font is Cochin. Looks a lot like Century, but smaller letters.
